• Opportunity Zones were established by the Tax Cut and Jobs Act of 2017. Low income areas were identified and designated throughout the country.

• The program allows for the deferral and partial exemption of capital gains invested in designated Opportunity Zones.

• Opportunity Zones are designed to spur development in communities through investment in real property and businesses.
OPPORTUNITY ZONE OVERVIEW

HOW IT WORKS

• Capital gains from ANY investment are placed into an Opportunity Fund within 180 days. Those funds must be deployed within 31 months into real estate, businesses or business equipment in an Opportunity Zone.

• 100% of capital gains are deferred until sold or Dec. 31, 2026

• 5-Year Investment Hold: 10% reduction in capital gains tax liability

• 7-Year Investment Hold: 15% reduction in capital gains tax liability

• 10-Year Investment Hold: In addition to the reduction listed above, NO capital gains taxes are assessed on earnings from the sale of an Opportunity Zone investment

OPPORTUNITY ZONES

Poplar Bluff Opportunity Zones map
The Poplar Bluff Opportunity Zones span all kinds of possible developments. From commercial to residential, we are seeking developers who want to invest in the future of Poplar Bluff. There are two ways to invest:

Current Opportunity Zone Fund

Currently, we have an investor who has created an Opportunity Zone Fund to purchase 3-4 commercial locations on Main Street in downtown Poplar Bluff. He plans to develop a mix of restaurant, retail and loft spaces.

If you want to invest in an Opportunity Zone, but don’t want to lead your own project, this developer would entertain additional investors in his fund.

New Opportunity Zone Fund

There are other individuals who have expressed interest in additional properties in the Opportunity Zone. If you have an idea and would like to lead your own project, we can help connect you with available property or other potential investors.
Investing in our Opportunity Zone provides significant advantages. To make the most of your investment, there may be other economic development incentives and tools available such as the following:

- Enhanced Enterprise Zones
- Historic tax credits
- Tax increment financing
- Property tax abatement
- Chapter 100 industrial bonds
